# Daylight by EuroWindowor Provision of Daylight in Buildings – state of the art and news about planning

October 24<sup>th</sup>, 2018

in the glasstec conference,  
Düsseldorf / Germany

DAYLIGHT

With supplementary program

“Closing Presentation of the  
EuroWindowor Study on  
Wooden Doors and Windows  
End-of-Life Treatment”

[www.eurowindowor.eu](http://www.eurowindowor.eu)

[www.eurowindowor.eu](http://www.eurowindowor.eu)

Dear Sir or Madam,

On October 24<sup>th</sup>, 2018 (14:00h – 16:00h) EuroWindowor will host its conference “**Daylight by EuroWindowor**” during the fair “glasstec” in Düsseldorf / Germany.

We recommend to combine this with the attractive Supplementary Program “**Closing Presentation of the EuroWindowor Study on Wooden Doors and Windows End-of-Life Treatment**” (11:00h – 12:30h) at the same day. Both events give an insight about the work of EuroWindowor and offer an unique opportunity to get current information about daylight in buildings and about the End-of-Life treatment of wooden products in Europe.

The language of the conference “Daylight by EuroWindowor” is English and German by simultaneous translation. The Supplementary Program on Wooden Doors and Windows End-of-Life Treatment will be held in English.

EuroWindowor represents as an international non-profit association the interests of the European window, door and facade (curtain walling) sector.

We are looking forward to meeting you on October 24<sup>th</sup>, 2018 during the fair “glasstec” in Düsseldorf.

Sincerely yours

Joachim Oberrauch  
President EuroWindowor AISBL
