

Windows, doors and facades have a huge influence on health, comfort and energy consumption of almost any building.

Help us remind EU officials of the positive impact of our industry.

Become a member of our Association of European window, door and facade manufacturers.

EuroWindow targets

Ensure window and door products are on the agenda as a positive product

Daylight providers providing energy efficiency and better comfort and health in buildings

Ensure sufficient knowledge of key EU regulation for the industry

Monitor and react on relevant EU legislation and initiatives. Make sure key EU regulation does not take us by surprise

Work for better regulation for the industry

Unnecessary burdens and double regulation to be avoided

Support to replacement agenda in Europe

Window, door and facade contribute to energy savings and better comfort in Europe

Contribution to sustainability and recyclability agenda

Ensure that products are fairly assessed on technical, verified facts

Securing a strong and efficient organization

Seen as a constructive cooperation partner, that is agile and can react and contribute within the necessary time span

Member benefits

Be part of a strong lobby organization on the European level

An organization concentrating on those specific items of relevance to windows, doors and facades

Talking with a stronger unified voice

Influence and strengthen the voice of our industry

Influencing, support and early information on future regulation

E.g. standardisation on thermal comfort, daylight requirements and internal air quality

Access to research, facts and figures

E.g. study on End of Life, Infographics

Building a European network

Exchange of market figures and insights with European colleagues

Perfect support for your work on the national level

E.g. through publications (Position paper, Studies, etc.) and latest information about developments and trends
