

Overview on EuroWindowor's activities

1. EuroWindowor welcomes AMFT from Austria as a new member association
2. Upcoming approval end date of propiconazole: a safe transition period is needed to secure the relevancy of sustainable wood-based products in construction (JOINT PRESS RELEASE)
3. Window replacement at the core of national resilience and recovery plans
4. EuroWindowor and venticool arrange a closer cooperation
5. Reviewing the Energy Efficiency Framework to generate a window replacement wave
6. EuroWindowor feedback to the Impact Assessments on Revision of EPBD: Windows for healthier buildings
7. New EuroWindowor Executive Board elected by the General Assembly on 18 March 2021
8. EuroWindowor published its feedback on Inception Impact Assessment on the revision of REACH Regulation
9. EuroWindowors answers the consultation on the review of EPBD
10. UN declares 2022 as the "International Year of Glass"
11. EuroWindowor feedback to the public consultation on the revised Climate, Energy and Environmental Aid Guidelines (CEEAG 2022)
12. Appointments 2021/ 2022

EuroWindowor welcomes AMFT from Austria as a new member association

AMFT

**Arbeitsgemeinschaft der Hersteller von
Metall-Fenster/Türen/Tore/Fassaden**

AMFT (Arbeitsgemeinschaft der Hersteller von Metall-Fenster/Türen/Tore/Fassaden) has been adopted as a new member association of EuroWindowor in the last Directing Council Meeting on 17 November 2020.

Reviewing the Energy Efficiency Framework to generate a window replacement wave

The window, door and flat glass industry welcomes the publication of the Commission’s communication “A Renovation Wave for Europe – greening our buildings, creating jobs, improving lives”. The objective to double the annual energy renovation rate of residential and non-residential buildings by 2030 represents a crucial step toward a Climate Neutral Union and will trigger the transformation of the European building stock as well as create associated green jobs in a post-COVID 19 context, particularly if combined with ambitious national recovery plans with a strong renovation focus. For more information see the joint position.

New EuroWindoor Executive Board elected by the General Assembly on 18 March 2021

On March 18th, 2021 the EuroWindoor General Assembly elected unanimously Verena Oberrauch (Member of the board of directors of Finstral AG, Unterinn / Italy) as new President and Nicolas Dupin (Regulatory Affairs Advisor at VELUX A/S, Hørsholm / Denmark) as new Vice-President. Franz Hauk (Share-holder of F.R. Hauk Stahl- und Leichtmetallbau GmbH, Berlin / Germany) was re-elected as Vice-President – as well unanimously - for further three years. Each member of the Executive Board represents a material group affiliated to the association, which is division plastics by Verena Oberrauch, division wood by Nicolas Dupin and division metal by Franz Hauk. Ms. Oberrauch was nominated by PVC Forum Italia, Mr. Dupin by the Danish woodworking and furniture industries association TMI and Mr. Hauk by the German window and door association VFF.

EuroWindowor feedback to the public consultation on the revised Climate, Energy and Environmental Aid Guidelines (CEEAG 2022)

The European Union aims to become the first emission neutral continent in 2050. To be able to archive this target big investments and support is needed towards more energy efficiency. This includes the renovation of buildings, a very important topic for EuroWindowor.
