

Overview on EuroWindoor's activities

1. EuroWindoor feedback on the European Standardisation Regulation
2. EuroWindoor feedback highlights the lack of alternatives for IPBC in wood preservation and emphasises the need for renewed authorisation
3. EuroWindoor and Commission continue their positive dialog on the “Energy Balance” principle for windows
4. EuroWindoor recommends manufacturers' own databases to store future Digital Product Passports (DPP) for Construction Products
5. Window replacements for energy efficiency: social media campaign started
6. EuroWindoor welcomes the new Construction Products Regulation published in the Official Journal of the European Union today
7. EuroWindoor reflects on 2024 Achievements and sends warm Holiday Wishes
8. Appointments 2025

EuroWindoor feedback on the European Standardisation Regulation

Frankfurt, July 2024 – EuroWindoor supports Regulation 1025/2012/EU in a public evaluation noting no need for changes are necessary. Current problems in the systems like the backlog in harmonised European Standards (hENs) are linked to issues between European Standardisation Organisations (ESOs) and the European Commission (EC), not the Regulation itself.

EuroWindoor feedback highlights the lack of alternatives for IPBC in wood preservation and emphasises the need for renewed authorisation

Frankfurt, November 2024 – EuroWindoor has submitted feedback to the ECHA consultation on the availability of alternatives to IPBC supporting the continued authorization of IPBC in wood preservation, highlighting the current lack of suitable alternatives as well as its safety and essential role in wood protection for construction.

Window replacements for energy efficiency: social media campaign started

Frankfurt, December 2024 – EuroWindowor, European Aluminium and EPPA have launched a social media campaign to spotlight the findings of the Fraunhofer Institute for Building Physics IBP study on the crucial role of windows in achieving the EU's climate targets. The campaign will run over the coming months on platforms like LinkedIn, sharing key insights through infographics.
